We have had Finchville Animal Hospital take care of our dogs for several years and they are always wonderful....They have seen us through new puppy care to the last breath of our precious Miss Lilly and her cremation. They love the animals and take wonderful care of them...You couldn't find a better good of people to care for your dogs....

I was told nothing else could be done for my little "Angel," a 17-year old AKC registered, female, spade Maltese. Diagnosed with Cushing's and Kidney Disease, and being blind and deaf, I was prepared to put her to sleep Wednesday morning, May 11. But, when I called my Vet in Louisville, who has seen Angel since she was 8-weeks old, he wasn't in. An omen? A God send? I think so! I called Finchville Animal Hospital (we live in Taylorsville), and told them what was going on. I had an appointment within 30-minutes. When I arrived, the euthanization paper was ready for me sign. But, something told me to get a second opinion. After all, Angel was still eating and drinking! I could not have been more pleased with the facility,

the staff, and especially Dr. Rexroad. She answered all of my questions, was very patient, and said that 'we can do this, this, and this!' Dr. Rexroad administered an IV of fluid therapy (Angel was a little dehydrated), which I will administer to Angel on an every-other-day basis, and gave me medication for her diarrhea and arthritis, and phosphorus to help with her Kidney Disease. (I will still give Angel her herbal liquid med for the Cushing's.) Although I know Angel will pass over the Rainbow Bridge one day, I know that in this last stage of her life she is in excellent hands with Dr. Rexroad and her staff who are compassionate, caring, and considerate. Therefore, I HIGHLY recommend Finchville Animal Hospital in Finchville, KY!

Dr. Rexroad is a delightful and caring vet for our 4 yr. old miniature schnauzer. I especially like the fact that I was able to get Sophie in to be seen on the same day that she experienced what seemed to be a petit mal seizure, and I was very impressed that Dr. Rexroad used her experience and common sense, rather than much more expensive additional tests, to arrive at a diagnosis/treatment plan to prevent future seizure incidents. I was somewhat disappointed to learn that the clinic does not stock the medicine I have customarily given for flea/tick prevention, but I am hopeful that the new medicine will be just as effective.

The doctor and staff listen to all the symptoms and appreciate that I can tell the differences in my pups behaviors. All that gives a well rounded treatment. I fully believe that back in January that Dr. Rexroad saved his life. She then recognized that a flare-up had occurred in March. She helped me know what to watch for in the future so that we can both take better care of him.

Finchville animal hosp is the best. We have been going there since it opened. Vet and all personnel are very caring individuals which means a lot when you have a pet who is sick or just getting routine shots. Mine always get kisses from them.

They always have "squeezed" us in when we needed unexpected service and are on time when we have an appt. I could go on forever about FAH.

This was our first visit and I was very impressed by the staff and service we received. From the minute we walked through the door, I knew I was going to like this office. Teresa , at the front desk was so friendly and helpful - I felt like I'd known her for years and I had only just met her! The techs and Dr, Rexroad treated my dog, Nate, like he was the most special dog they had ever met - which is what every pet owner dreams of in a vet. Everyone was on the floor with Nate giving him so much attention - it warmed my heart! I will be taking both my dogs there in the future and would definitely recommend you do, too!! Thank you!!

Our two dogs, Woody a 10 year Corgi, and Rubye a two year shih-Tzu, had their annual appointments this week. Woody also had his teeth cleaned. Both of our babies were treated very kindly and gently. Woody is always scared during his car ride, so he was shaking when we arrived. However, he calmed down quickly as he was whisked off for his cleaning. They both had a good experience and I did too.

During the last week of January we took our 13 year old dog, Madison, to Dr. Rexroad for her annual physical exam. Dr. Rexroad remembered Madison from her prior office visit and made us feel like she was interested in Madison's well being. The thing we like most about Finchville Animal Hospital / Dr. Rexroad is that we never feel like we are rushed or that they need to get patients out the door quickly. I had a long list of questions since it was Madison's annual physical and Dr. Rexroad patiently discussed my concerns and answered my questions. We have a vet hospital three miles from our house, but we prefer to drive 30 minutes to take Madison to Finchville Animal Hospital because the entire staff actually seems concerned about the animals and owners that walk in the door.

If you want a superb vet with courteous staff then look no further than Finchville Animal Hospital. We have always felt we were in good hands having our animals taken care of by Dr. Rexroad.....why else would we make the 150 miles round trip if

we were not completely satisfied. Don't just take our word for it, make an appointment and we guarantee you and your pet will not be disappointed.

Finchville Animal Hospital shows genuine concern and love for every pet that comes in as if it were their own pet. I love the welcoming environment. My dog was not even nervous going in as a first time patient. Normally, she is. I would give Finchville Animal Hospital a rating of 5 *'s. Not only are they pet friendly, but they are reasonably priced as well. Of all of the services that my dog received PLUS all of the medicine, I was pleasantly surprised at my total due. Thank you Finchville Animal Hospital! Love the hours, too. :-)

I love coming to the office! I feel like everyone cares that my animal is treated well. However, I have been suffering from sticker shock lately. I understand care is not cheap, but the last two times I have been there were over \$100 for checkups and bloodwork. When you have several animals, that makes it tough to be able to get the care they need.

Pets are like family and if you want the best care for them then you have to go to Dr. Rexroad at Finchville Animal Hospital. We drive around 76 miles one way to take Brandi our GoldenDoodle to Dr. Rexroad because we know she will get the best care possible, at the best price possible. Dr Rexroad is an excellent and very knowledgeable vet, with a very clean clinic and very friendly staff. So why not give Dr. Rexroad at Finchville Animal Hospital a try, you won't be disappointed. Shirley & Steve Nichols (and of course Brandi).

My latest visit was just to pick-up some pills for Tyco. He seems to have an irritable bowel. The doctors at Finchville Animal Hospital are caring - which is why we take our three cats to them. They are there when you need them. Dr Rexroad even responded to my call on holiday while she was on the road and offered to meet us in the evening upon her return. You can't get a medical doctor to do that.

Very friendly, caring staff who obviously enjoy their work. Services are provided in a warm relaxed setting. Our visit was a semi-emergency but, although the office was quite busy, we were scheduled for an appointment in a timely manner, service was prompt and the doctor never seemed in a rush. My pup's illness was explained thoroughly, medication schedules and care instructions were gone over carefully, and she is responding well to the medications provided.

★★★★★ by GEORGE & CHERYL MILLION on 2015-05-13

Have never been there before and I called and explain how my dog had a bad ear infection and no one else could see him due to it being a Saturday, and everyone closed early. They said to bring him on in and they would make sure he was taken care of. We got there and were in a room fairly quickly. Everyone was extremely nice to me and my baby boy! Conry is usually shaking and afraid the entire time we are at the vets, but everyone was hugging on him and making him feel safe, enough so that he quick shaking after about 5 minutes and just stood there letting them do what they needed to do. I will be going back with my other dogs!

Round trip for me and my canine to Finchville Animal Hospital is 42 miles. The people at the hospital make the trip worth it. We always get first class care and attention, whether it is for a nail trim or emergency. And once you get off the I64, the 4 mile drive is very pleasant.

First visit to FAH for Jellybean (Yorkie). Staff was great, especially Dr. Elke. I must add, this place is so clean and smells wonderful. Just overall, a great experience for myself, probably not so much for Jellybean as he had several tests and shots. Staff have truly found their calling and care about my baby as much as I do.

★★★★★ by SHARON MILLS on 2015-03-19

This was our first visit to the Finchville Animal Hospital. Dr. Rexroad cared for our dog, Madison, at the Crestwood Animal Hospital and we followed her to her new office in Finchville. Dr. Rexroad takes whatever time is necessary to listen to what issues we may be having with Madison, thoroughly examine her and then clearly explain treatment options. Dr. Rexroad and the staff at FAH are friendly and very responsive. We are very satisfied with the vet services at FAH and would not hesitate to recommend FAH.

If you are looking for a great Veterinary service Finchville Animal Hospital is your place. I have been with Finchville for over 8 years. I trust all my animals to them. When Dr Rexwood took over Finchville she put my Jenny on new meds. Jenny had bladder cancer. She gave her 6 months of great life. There employees are knowledgeable and caring. Dr Rexwood is such a great person and vet. They do all dogs, cats and small animals and I think Horses still. I wish they knew more about camillids.

My husband and I have been taking our shih tzu maemay to finchville for over year now. We are very impressed by the awesome care maemay received. when she had to be hospitalized for 4 days. We recently bought in our black lab ,Luna , Dr. charissa rexroad and dr . Elke Fahrenkrog are wonderful . The staff is very friendly and treat your pet as their own .We wouldn't take take them anywhere else ! Best of the best . I highly recommend finchville Animal Hospital!

My experience at Finchville Animal Hospital is always the best. Anytime I have had an issue with one of my three dogs the staff is always friendly and understanding. Going to the vet is not an experience I look forward to as it typically means something is wrong but FAA makes me feel like a member of the family. It is very clear they care about what they do and the treat each one of my dogs as if they were one of their own. I cannot say enough good things about FAA.

The staff are great and always friendly. I have family that work at your facility and that means a lot to me. Always great service

and caring staff. The vet herself is knowledgeable and you can tell she loves animals. Thank you. I intend on always bringing in my three fur babies to your facility.
